- Up to 50% weight savings over other nets
- Repairable with patch kits
- Locking snap hooks on all nets
- Minimizes cargo volume and weight for carried nets
- 16ft & 20ft standard sizes

Why Dyneema® Fibre?

One of the most advanced fibres in existence, Dyneema® fibre provides an unmatched strength to weight ratio, superior cut and abrasion resistance, UV stability, and does not absorb moisture like nylon or polyester.

Because of these amazing characterists, Dyneema allowed us to reduce the weight and bulk of a cargo net by up to 50% while retaining excellent durability. This translates directly into savings for you and your customers: more useful payload and cargo space, lower shipping costs, and easier ground handling.

Strand Size for 1075lbs MBS

Common Sizes (8-Sided Net)			
WLL (lbs)	Net Size	Approx. Weight	P/N
3,000	16' (4.8m)	22 lbs (10 kg)	DCN-168-3K
3,000	20' (6.1m)	25 lbs (11.3 kg)	DCN-208-3K
5,000	16' (4.8m)	25 lbs (11.3 kg)	DCN-168-5K
5,000	20' (6.1m)	30 lbs (13.6 kg)	DCN-208-5K
10,000	25' (7.6m)	70 lbs (31.7 kg)	DCN-258-10K
